

COUNTY AND DISTRICT TRENDS IN HAWAII,
1989

This report presents statistics on social and economic trends for the State and each of its four counties, annually for the past decade, and for the State's 24 districts for a more limited period.

The State of Hawaii consists of eight major islands and 124 minor islands grouped into four functioning counties and 28 districts. The counties include the City and County of Honolulu, consisting of Oahu and the Northwestern Hawaiian Islands (except Midway); the County of Hawaii, consisting of the island of that name; the County of Kauai, which includes Kauai, Niihau, and Kaula; and the County of Maui, which consists of Kahoolawe, Lanai, Maui, Molokai, and Molokini. Kalawao County occupies a 13-square mile peninsula on the north coast of Molokai; inasmuch as it lacks county government and consists entirely of a small Hansen's Disease settlement, it is usually combined with Maui County for statistical purposes. Each county moreover is divided into districts, 28 in all: seven in Honolulu, nine on the Big Island, seven in Maui County (including Kalawao), and five in Kauai County.

This report presents 32 separate statistical series for the State and its four counties: population, both resident and de facto; births; deaths; hospital beds; school membership; college enrollment; public library collections; major crimes; registered voters; welfare recipients; civilian labor force; unemployment rates; jobcounts; average wages; personal income, total and per capita; business establishments; broadcasting stations; electricity and piped gas sales; registered motor vehicles; crop and livestock sales, separately for sugar, pineapples, diversified crops, and livestock; building permit values; housing stock; westbound visitors; and hotel unit inventory and occupancy rates.

At the district level, nine separate series are shown: resident population, births, deaths, school enrollment, registered voters and votes cast, hotel units, water services, and electric customers.

These series were selected to trace major social and economic trends in the State and its subareas. Inasmuch as only those series available at the county or district level on an annual or biennial basis were considered, many similar statistics of equal or greater value were necessarily omitted. Such excluded subjects included some available only in the decennial population censuses or quinquennial economic censuses, and others compiled only for the State as a whole or limited to a single county. For a more comprehensive

set of statistics for a given area, it is accordingly necessary to go to The State of Hawaii Data Book or its underlying sources. 1/

Users should note that many of the series reproduced here are subject to periodic revision. The annual figures shown in these tables should thus in many instances be treated as provisional and open to future modification. Some may differ from previously published data.

The present report combines two series previously issued separately, County Trends in Hawaii and Statistics by Districts. The former was published by DBED and its predecessor agencies annually beginning in 1976. 2/ The latter appeared annually beginning in 1981. 3/ The first combined publication was issued in 1989. 4/

1/ The State of Hawaii Data Book 1989: A Statistical Abstract (November 1989) is available for \$8.00 per copy from the DBED Information Office, or for \$18.00 postpaid airmailed to the Mainland and \$35.00 airmailed abroad.

2/ The first was Statistical Report 116, "County Trends in Hawaii Since 1960," October 12, 1976.

3/ The first, issued by the Hawaii State Census Statistical Areas Committee, was Report CTC-46, "Statistics by Districts, 1980," January 23, 1981. The narrative section of that report included a brief history of statistical reporting at the district level and also a description of major statistical series available for these areas.

4/ DBED, County and District Trends in Hawaii, 1988 (Statistical Report 211, January 1989).

Table 1
RESIDENT POPULATION: 1979 TO 1989

[As of July 1. Data include military personnel and dependents]

Year	State total	Honolulu	Hawaii	Kauai	Maui
1979	953,300	756,000	89,400	38,100	69,700
1980	968,900	764,800	93,000	39,400	71,600
1981	980,300	768,500	97,000	40,600	74,200
1982	997,700	778,700	100,200	41,900	76,900
